## Wyoming Hotel Terra

*Teton Village*

In many of these Western states, it's all too easy to choose the unattainable luxury ranch, but Hotel Terra is anything but that. It's an actual boutique hotel that just happens to be in a pretty damn rustic cowboy town. The feel is modern, all the way from the hotel rooms with the heated floors and rain showers to Il Villagio Osteria, its authentic Italian restaurant. It also doesn't hurt that its cafe makes some of the best damn French press coffee in the entire state.
