We've definitely had our share of amazing wedding details grace the pages of SMP but pretty positive this is the first time we've encountered a moss stag. It's one of many modern details crafted by [The Writing Horse](#) along with planning by [In Any Event](#) and green + ivory florals by [Lily And Company](#) that proves rustic Wyoming plays nicely with a little dash of mod. Have a look at every last gorgeous image captured by [Carrie Patterson Photography](#) right here in the [full gallery](#).
