

Where To Eat In Jackson Hole, Wyoming

By Josh & Erin Bender

Jackson Hole's food scene gathers inspiration from Wyoming's natural abundance, pioneering origins and cowboy flair. Whether you're coming here for a skiing vacation or exploring Grand Teton and Yellowstone National Parks, you can find a feed that will satisfy.

So without further ado, come bite your way through a scrumptious slice of one of the most loved ski destinations in the United States.

Rendezvous Bistro

In this restaurant you'll find French flair with a relaxed atmosphere. As it's very popular I'd suggest making a reservation in advance.

Erin's **beef bourguignon** was better than any dish she tried in France. And while my steak frites was perfectly cooked, I'd suggest swapping the fries for mashed potato.

The Bottom Line

The range and quality of food in **Jackson Hole** matches everything you would come to expect from a world-class ski destination. So when you're working up an appetite on the slopes, there's no need to worry as an abundance of options await at the end of the trail and beyond.
