

The TPG 20: The best new hotels of 2021

[Ben Smithson and Tanner Saunders](#)

The Cloudveil, Jackson Hole, Wyoming

Here's what to love:

- A chic hotel in the heart of Jackson Hole.
- Located at the gateway to some of the best national parks in the U.S.
- Cozy amenities like fireplaces and large, freestanding bathtubs in select rooms.

Wyoming as a whole has been attracting A-list celebrities and the ultra-wealthy for a while now thanks to its abundance of space and beauty. And Jackson Hole, one of the gateways to Yellowstone and Grand Teton national parks, is one of the busiest little towns in the U.S.

Now, with this year's opening of [The Cloudveil](#), part of Marriott's Autograph Collection, the western outpost has an equally buzzy hotel.

With 100 rooms and suites, many featuring fireplaces and balconies and a special suite with a jaw-dropping soaking tub, The Cloudveil is an ode to its mountain location in the West, with wood and stone accents, furs and hides and a rustic aesthetic that's cool, not clunky. At The Bistro, the hotel's Parisian brasserie-inspired restaurant, an oyster bar complements menu items like seared halibut, wagyu beef tartare and craft cocktails.

On the rooftop terrace, guests can sit around large fire pits to unwind after a long day exploring nature or start the day with sunrise yoga. A heated, outdoor pool and hot tub, along with a fitness center, round out the hotel's amenities. Adventure and nature enthusiasts can get help organizing skiing excursions, fly fishing trips and [trips into Yellowstone or Grand Teton perfect for families](#) or solo travelers.
