This Scenic Wyoming Valley Is the Perfect Winter Retreat, With Skiing, Sleigh Rides—and a New Flight

United has unveiled a new seasonal route that will connect Boston and Jackson Hole on Saturdays this winter, with an extra incentive for travelers headed straight for the slopes.

The Cloudveil

Right on Jackson's historic Town Square, **the Cloudveil** is a convenient base for travelers who want easy access to both the slopes (Jackson Hole Mountain Resort is about 20 minutes from town) and restaurants and shopping. The 100-room hotel has a rooftop terrace overlooking the Town Square and Snow King Mountain, an outdoor pool and hot tub, and the Bistro, a European-style restaurant. This winter, guests can also borrow professional Sony A7R V cameras and lenses through the hotel's new Sony Camera Lending Program, then snag a custom photography map for directions to hotel-recommended spots around Jackson Hole (with suggested camera settings and techniques for newbies).
