[Glorietta Trattoria](#) offers outstanding Italian fare and top-flight cocktails, and it's just a short walk from the Town Square. A seat at the bar usually results in healthy conversation with the bartenders and other bar-favoring diners. Located on Glenwood Street just a block from the Town Square, [The Kitchen](#) offers New American cuisine with a raw bar serving up a healthy offering of sushi. This is a spot where you can often walk in and get either a seat at the bar or a table without reservations. My recommendation: the bison tartare.
